Weather Variability and Climate Change: Challenges and Solutions for the Mining Sector 1 Day Workshop

Wednesday, February 8, 2012

09:00 - 17:00

Willet Green Miller Centre, Auditorium (Main Floor)
933 Ramsey Lake Road, Sudbury, ON

The Workshop Will:

1. Communicate climate change science and impacts as well as other drivers of adaptation planning;
2. Present methods to evaluate climate vulnerabilities and risks and convey practical examples of the application of such tools; and
3. Facilitate knowledge exchange between mine operators and various experts in the field of climate change adaptation.

Speakers Include The Following:

Dr. David Pearson, Professor, Laurentian University
Mr. Robert Tremblay, Director of Research, Insurance Bureau of Canada
Mr. David Lapp, Manager of Professional Practice, Engineers Canada
Mr. Marc Butler, Director of Regulatory Affairs, Xstrata Nickel, Sudbury
Mr. Sean Capstick, Principal, Golder Associates
Mr. Leon Botham, Vice President, McElhanney Consulting Services Ltd.

Registration:

- General: \$100.00
- Students: \$50.00

Plus 13% HST. Includes meals and course materials. Visit website for registration form.

Deadline for registration: January 31, 2012, space is limited.
